Britain's Policy Is Unique One

Foreign Problems, By an Author, *Not Soled at the New York Daily*

MR. JUSTICE CHAMBERLAIN, K.C.

THAT there is a fundamental difference between Great Britain's foreign policy and the foreign policy of other nations is a fact known but is generally only seen in the light of the fact that the British Empire is the largest in the world.

There is a large measure of British policy in the world, and it is a fact that the British Empire is the largest in the world. The British Empire is the largest in the world, and it is a fact that the British Empire is the largest in the world.

Many Soaps claim to keep youth

but only this soap dares tell you what it's made of

CAKE of soap may seem a very simple thing. Don't deceive yourself. It's important.

How do you choose soap? By fancy claims? By the look of a wrapper? By fragrance?

Think of the soaps you know. What are they made of? Do the makers tell you? No. Read over any of the advertising for these soaps. Can you tell what they're made of? Not a bit. But you do know what Palmolive is made of—olive and palm oil!

Why vegetable oils are best

Vegetable oils in soap cleanse safely. There is nothing in them to scotch or dry the skin.

Note the results Palmolive brings. No wonder beauty specialists urge it. In over 1200 cities beauty specialists recommend this one soap—more than 30,000 of them.

That is because Palmolive is pure. It contains no animal fats of any kind. Its delicate natural color comes from its fine vegetable oils.

Don't think other soaps can give Palmolive results. They can't. To keep that schoolgirl complexion, use Palmolive!
